

Remediation Works

21 July 2017

Upcoming Hickson Road Works

Work is continuing to remediate the former Millers Point Gasworks site.

In preparation for the next stage of the remediation project, work continues within the footprint of the current established works compound.

From **Monday, 24 July 2017**, work will extend further to the north to facilitate the realignment of Hickson Road.

This work is expected to take up to two months to complete.

Work will take place during standard construction hours, Monday to Friday from 7am to 7pm and Saturdays from 7am to 5pm.

Further details on the next stage of remediation work will be provided in the coming weeks.
