

## Notification - Barangaroo

30 August 2017

Sydney Metro is Australia's largest public transport project. It will transform Sydney, delivering more trains and faster services for customers across the network.

Sydney Metro City & Southwest extends the new metro network from the end of the Sydney Metro Northwest at Chatswood, under Sydney Harbour, through new railway stations in the CBD and west to Bankstown – a total of 66 kilometres of metro rail.

When services start in 2024, there will be a train at least every four minutes in the peak – customers won't need a timetable, they'll just turn up and go.

The \$2.81 billion contract for tunnelling and station excavation works was awarded to John Holland CPB Ghella Joint Venture on 22 June 2017. Future updates will provide more information about these construction activities.

### Utility and geotechnical investigations – Barangaroo and Millers Point

Utility and geotechnical investigations will be undertaken on Hickson Road and Dalgety Road from **Wednesday 6 September 2017** until the end of the month, weather and site conditions permitting (see map overleaf).

#### Works will involve:

- Temporary closure of one parking lane on Hickson Road and Windmill Street
- Delivery of plant and equipment and establishment of the work area
- Use of drilling and vacuum excavation trucks to dig boreholes to determine ground conditions and the location of underground utilities
- Reinstatement of the excavated area.

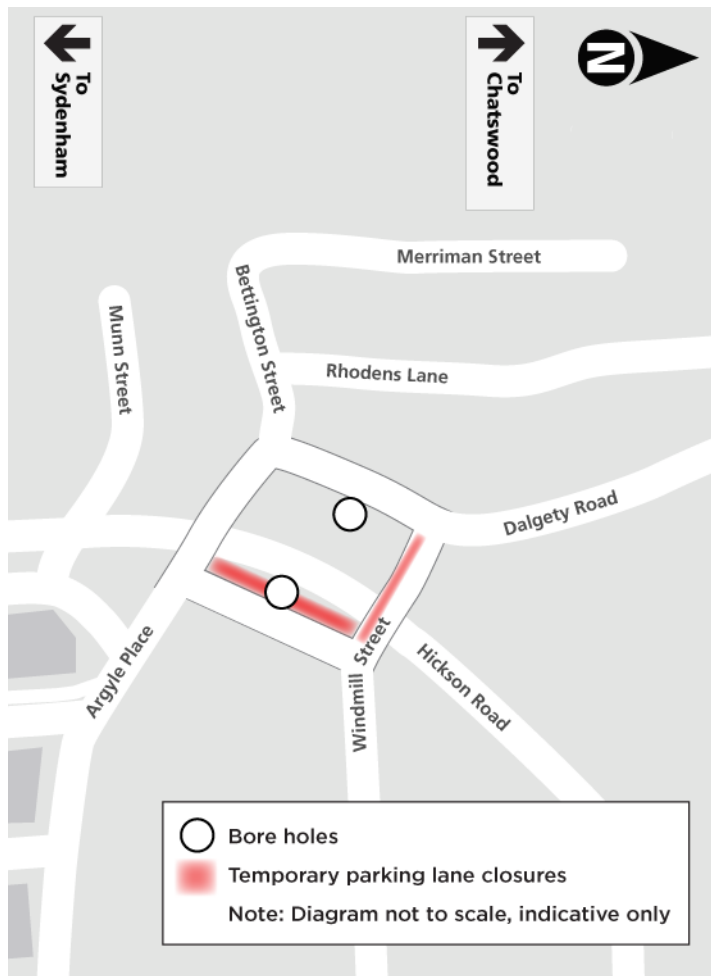

#### Work hours

Work will be undertaken during standard construction hours which are **Monday to Friday between 7am and 6pm** and **Saturday between 8am and 1pm**.

#### What to expect

- Traffic control and directional signage will be in place for the safety of workers and the community.
- Due to the nature of the work, some of these activities will be noisy. The project team will limit these impacts wherever possible.
- Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.
