

June 2013 Air Quality Summary Report

Licence Number: 13336

Licensee: Barangaroo Delivery Authority

Licensee Address: Lvl 21, 201 Kent Street, Sydney

Sampling period: 1-30 June 2013

Date provided to Licensee: 19 July 2013

Date published: 26 July 2013

June 2013 Air Quality Summary Report

Barangaroo South

This report has been compiled to summarise results of air quality monitoring at Barangaroo South in June 2013 in accordance with [EPL number 13336](#). This data is for samples taken from 1 to 30 June 2013. The data was provided to the Barangaroo Delivery Authority (the Licencee) on 19 July 2013.

Lend Lease conducts continuous air quality monitoring at Barangaroo South to measure air quality and assist the construction team implement appropriate environmental controls on site.

Air quality monitoring is carried out in accordance with all relevant authority and statutory requirements. Monitoring parameters include lead, metallic compounds, polycyclic aromatic hydrocarbons, total solid particles, particulate matter less than 10 microns (PM10), and volatile organic compounds.

Location of ambient air quality monitors

Ambient air quality monitoring devices are located at four locations around the site as shown below:

Approximate locations of air monitoring equipment

These locations correspond to the following licenced monitoring locations:

- Northern: EPL Point 5
- Eastern: EPL Point 8
- Southern: EPL Point 13
- Water Treatment Plant Air Quality: EPL Point 17
- SISCO Air Quality: EPL Point 18 (close to EPL Point 8)

EPL Points 14, 15 & 16 have not been monitored to date, as they are associated with works that have not commenced. EPL Point 18 was not required for this stage of the works as the remediation trial has been completed.

Monitoring results

During June 2013 construction activities were undertaken in accordance with relevant management plans. General controls implemented during this reporting period included:

- Water cart spraying and road sweeping.
- Use of dust buster on bulk excavation.
- Covering loads and stockpiles as appropriate.

- Housekeeping to keep exposed areas to a minimum.
- Ongoing monitoring of the air and odour quality.

Metallic Compounds (including Lead)

Date	Monitoring Location	Concentration ($\mu\text{g}/\text{m}^3$)
