STATEMENT ON LEGAL PROCEEDINGS IN LAND AND ENVIRONMENT COURT

The six-day hearing of *ASD Inc vs Minister for Planning, Lend Lease and Barangaroo Delivery Authority*, in the Land and Environment Court concluded yesterday.

The Court was made aware of the fact that due to commercial considerations an early resolution was required, and a request for judgement within two weeks was preferable. These considerations included the awarding of contracts and commencement of works.

The Barangaroo Delivery Authority maintains it has always been open and transparent regarding works on site, particularly regarding contamination and remediation of the site.

As the matter is currently awaiting decision from the Land and Environment Court, it is not appropriate for the Authority to comment specifically in relation to matters in the proceedings.
