

Barangaroo Construction Update

23 November 2017

Remediation night works

Night works, on Watermans Quay and Hickson Road previously scheduled to take place from Sunday, 29 October to Monday, 13 November 2017, were postponed. The work is now expected to commence on **Sunday, 26 November** and be complete by **Thursday, 7 December 2017**.

To minimise disruption for pedestrians and local traffic, the work and road closures will occur at night. This work will take place between **8pm** and **5am**. Works may not occur every night during this period, and no work will be done on Friday or Saturday nights. Measures will be taken to minimise the noise impact where possible.

Watermans Quay

The work in Watermans Quay will take place at the intersection of Watermans Quay and Hickson Road. Due to the location and size of the work, Watermans Quay at the corner of Hickson Road will be closed to vehicles during these times.

Traffic controllers will be in place to allow vehicles to access the basements on both Barangaroo Avenue and Watermans Quay. However, drivers will need to use Erskine Street and Lime Street to get in and out of the precinct.

Hickson Road

The work in Hickson Road will take place in a small compound on the western side of the road, adjacent to the Barangaroo construction site office (across the road from the High Street Steps).

Hickson Road upgrade night works

As previously notified, an upgrade of Hickson Road between Watermans Quay and the Sussex Street Bridge is currently being delivered for the Barangaroo development. The work is progressing well and minor night works are required to install an electrical conduit under the road.

This work involves excavating the road approximately ten metres south of the intersection of Hickson Road and Napoleon Street. Most of this work cannot be carried out during standard hours because of daytime traffic volumes, so it must be done at night.

The work will be programmed to ensure the noisier components such as saw cutting of the road will occur during standard daytime hours. However, excavation of the trench, laying of the electrical conduit and the reinstatement of the road will be carried out from **8pm to 5am**.

The work will be carried out over four nights from **Monday, 27 November 2017**:

- Monday and Tuesday nights – work occurs in the existing northbound lane of Hickson Road
- Wednesday and Thursday nights – work occurs in the existing southbound lane of Hickson Road
- Pedestrian access will be temporarily restricted on the eastern footpath on Wednesday and Thursday nights for safety reasons

Traffic control will be in place for both the remediation and Hickson Road upgrade night works to ensure vehicle access is maintained. Please refer to the map overleaf for further information about the works taking place.

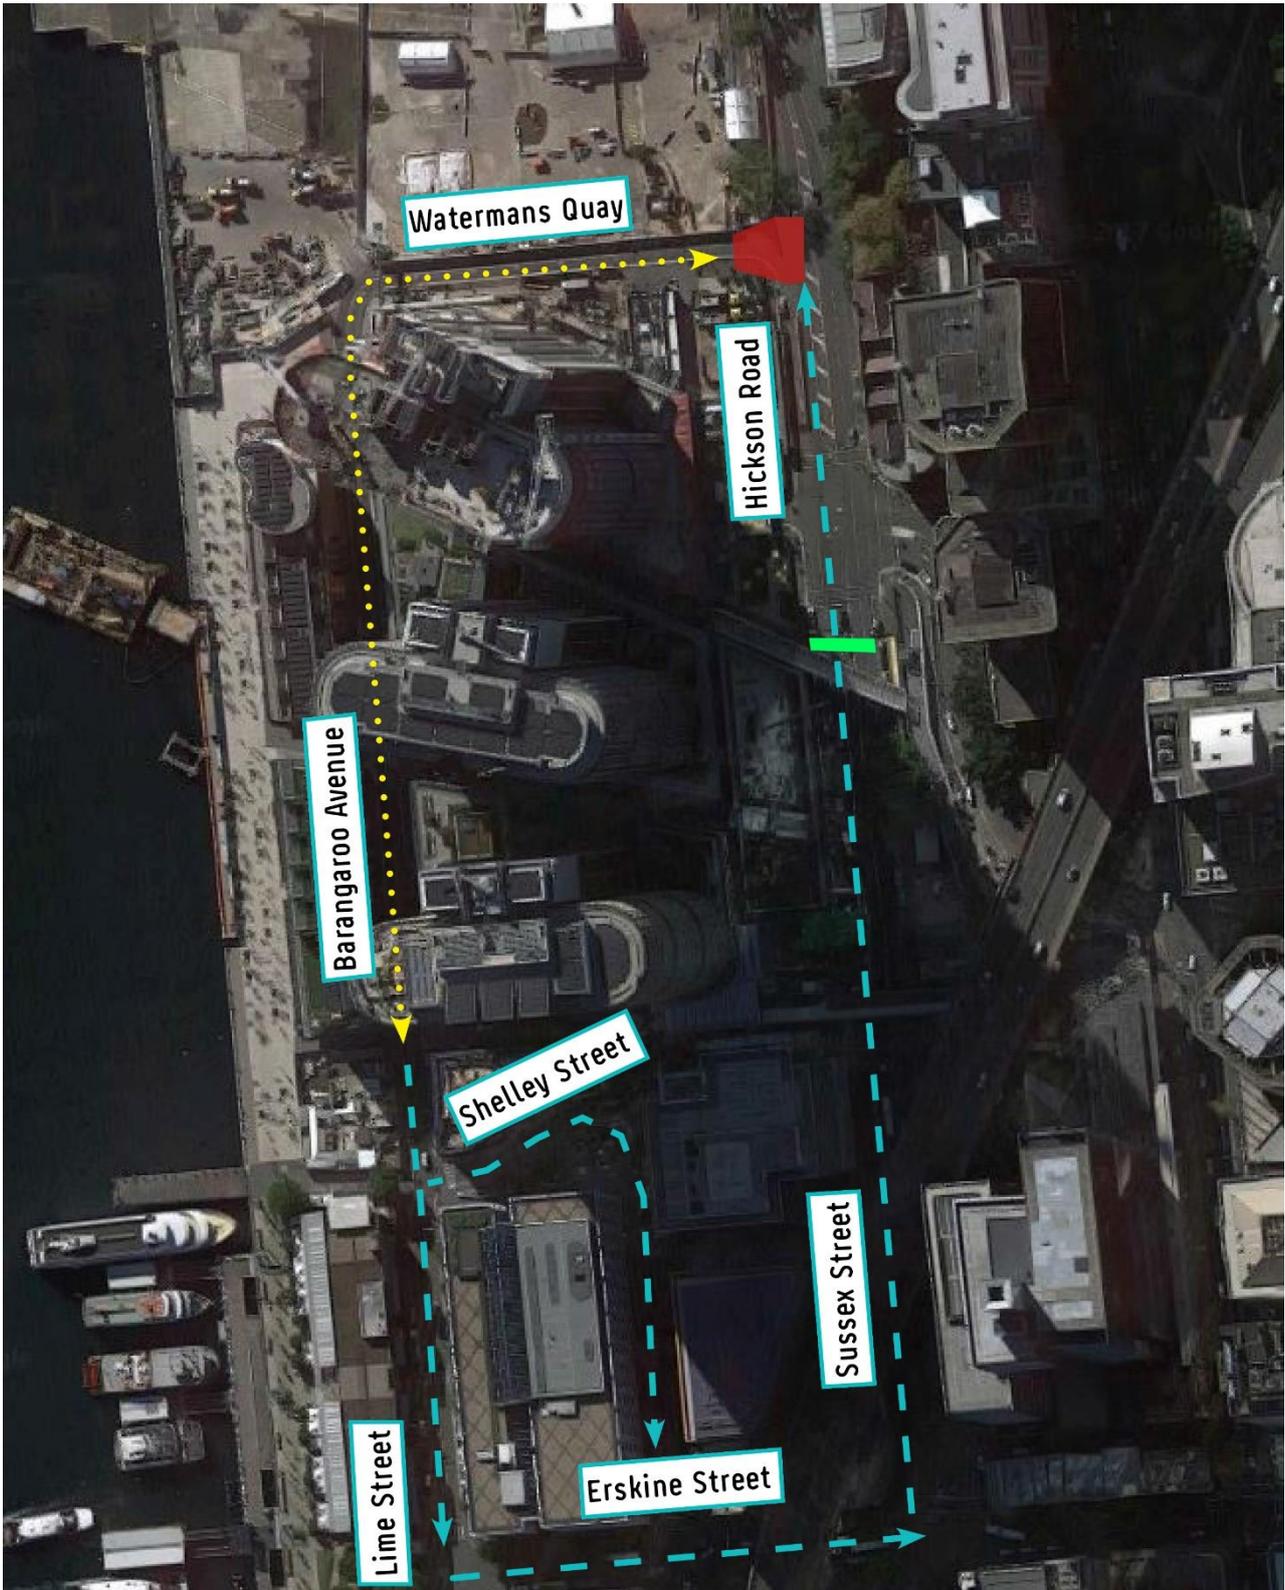

Thank you for your patience during these works. For further information, please contact the Lendlease Community Development team on 1300 039 733 or email barangaroosouth@lendlease.com.

For more information on the remediation project, please visit www.barangaroo.com/remediation.

Kind regards

Lendlease Community Development team
