

Remediation Works

5 March 20178

Temporary Road Closure – Barangaroo Avenue and Watermans Quay

As part of the remediation project at Barangaroo stormwater pipes in Watermans Quay need to be upgraded.

This work will take place on **Saturday, 10 March 2018 between 7am and 5pm.**

To protect the safety of road users, pedestrians and our workers, it is necessary to temporarily close a section of Watermans Quay and Barangaroo Avenue to carry out these works.

A small crane will be used in Watermans Quay to lay pipes, but the work is not expected to be excessively noisy.

If the work is delayed for unforeseen circumstances, they will be completed on Saturday, 17 March 2018 between 7am and 5pm.

Traffic and Pedestrian Safety

Barangaroo Avenue will be closed to traffic from Lime Street for the duration of the work, however vehicle access to the International Towers Sydney basement and resident parking will be maintained at all times.

Pedestrian access and access to the shops, restaurants and cafes will be maintained as usual.

Vehicles requiring access to the International Towers Sydney loading dock will need to enter Watermans Quay via Hickson Road, as shown on the map overleaf.

Traffic controllers at key locations on Barangaroo Avenue and Watermans Quay will help drivers.

Deliveries, Ubers and taxis

Barangaroo residents and workers expecting deliveries or ordering Ubers or taxis should make arrangements to pick up/drop off outside the road closure (eg Shelley Street).

More information

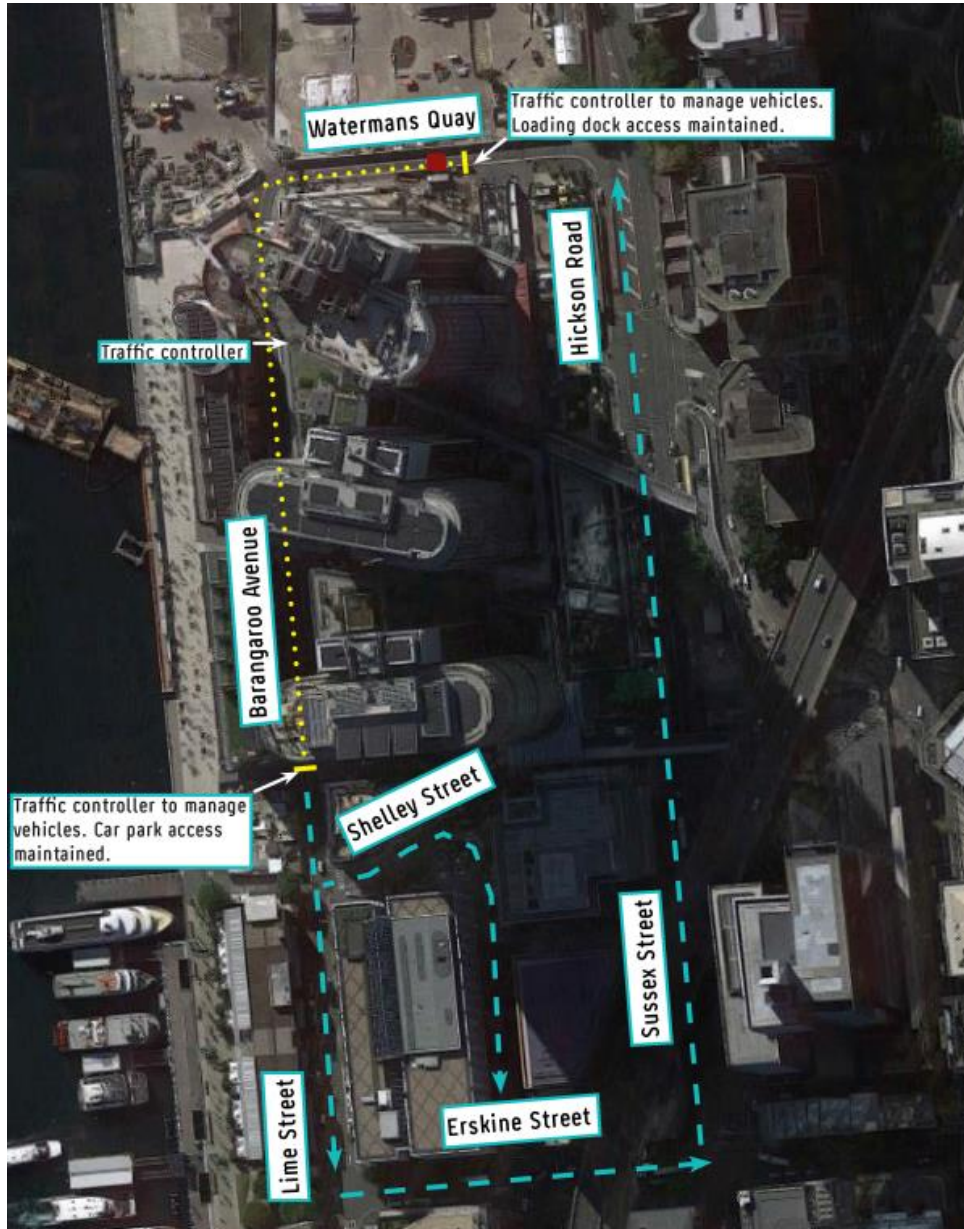

Thank you for your patience during these works. Please contact a member of the team for further information.
