

Barangaroo Remediation

28 August 2018

Upcoming Night Work

Work to remediate the Barangaroo site is well underway. As part of this project we are required to undertake work to construct an underground retaining wall.

This work will take place outside of normal construction hours due to safety reasons. All work will be carried out within the large odour control enclosure (tent) on site.

The Department of Planning and Environment has approved this work to take place between **Tuesday, 4 September and Wednesday, 26 September 2018 between 6pm and 10pm. Please note there will be a maximum of 3 nights of work per week.**

The work will involve installing anchors to support the walls around the excavation site. There will be minimal noise associated with these activities and work will be closely monitored to reduce impacts.

Generators will be required to power some of the equipment and small, directional lighting stands will be used to ensure the safety of our workers.

All work will take place within the current Barangaroo remediation site and there will be no impact to local traffic.

More information

Thank you for your patience during this important work. For further information, please contact a member of the team on 1300 039 733 or email at barangaroosouth@lendlease.com

Should you wish to contact the Department of Planning and Environment about this work, please contact 1300 305 698 or email at compliance@planning.nsw.gov.au
