

# Barangaroo Remediation

30 August 2019

---

## Hickson Road Odour Control Enclosure Removal

Remediation excavation within the Hickson Road Odour Control Enclosure (OCE) is now complete. Over the coming months, the OCE and works compound will be progressively removed while the road, public domain and utilities are reinstated.

Work will soon commence to remove the OCE which is located on the eastern side of Hickson Road. In order for this work to take place, temporary closures of the southbound lane of Hickson Road, adjacent to 30 to 38 Hickson Road, will need to occur.

Hickson Road southbound lane traffic management will be implemented as required from **Thursday 5 September** until **Monday 30 September 2019**. The closure will be in place between **10am to 3pm Monday to Friday**, and **7am to 5pm Saturdays**.

Traffic management will be in place throughout this work to maintain traffic on Hickson Road at all times. Access to the driveways of 30 and 38 Hickson Road will be maintained during the works.

Please note that the lane will only be closed when required and will not be closed each day during these periods. It is not anticipated that there will be any excessive noise associated with this work.

## More information

Thank you for your patience during these works. Please contact a member of the team for further information.
