## Hickson Road Remediation Project - Upcoming Out of Hours Works

### Potable Water Connection – 30, 36 and 38 Hickson Road

As part of the Hickson Road remediation project, the original potable water supply to 30, 36 and 38 Hickson Road will be reconnected. Works will take place on the following nights:

- **From 6pm Monday 4 November to 5am Tuesday 5 November 2019**
- **From 6pm Tuesday 5 November to 5am Wednesday 6 November 2019**
- **From 6pm Wednesday 6 November to 5am Thursday 7 November 2019**

There is one night for contingency work from 6pm Thursday 7 November to 5am Friday 8 November 2019. This work is required to be undertaken at night due to water interruptions to 30, 36 and 38 Hickson Road.

As part of these works, the southbound lane on Hickson Road will be temporarily closed between 8pm and 5am on the above nights. Traffic controllers will be in place to safely direct road users and two way traffic will be maintained. Access to the 30 The Bond underground parking for the duration of these works will be controlled by traffic controllers.

Additionally, there will be hoarding related works undertaken on these nights to enable an upcoming realignment of Hickson Road.

There will be some noise associated with these works including the cutting of pipes and the use of equipment to move the hoarding.

---

### Power Cable Reconnection

As part of the removal of the works compound, Ausgrid is required to reconnect power cables that were temporarily diverted around the Hickson Road remediation compound. This is expected to occur for one night on **Sunday 10 November 2019** from **6pm to 6am**.

The work will require the use of plant, small tools, generators and lighting. The work is not expected to generate excessive noise.

If the works are unable to proceed on Sunday 10 November, they will take place on Monday 11 November 2019 from 6pm to 6am.

### Interruption to power supply

Some nearby residences will experience a power outage during the works. Ausgrid will separately notify any residents and businesses affected by this work.

Connection dates and work hours have been set by Ausgrid and while the work is not expected to be disruptive, every effort will be made by Ausgrid to minimise the impact on the neighbouring community.

## More information

Thank you for your patience during these works. Please contact a member of the team for further information.
