

# Construction Update

INFORMATION FOR OUR BARANGAROO SOUTH NEIGHBOURS

21 July 2022

Dear Barangaroo Neighbour,

## Upcoming Nightworks and Road Closure – Watermans Quay

Ausgrid will carry out essential works in Watermans Quay from **8pm until 5am** on the following nights:

- **Tuesday 26 July 2022**
- **Wednesday 27 July 2022**
- **Thursday 28 July 2022 (contingency)**

The dates and times of these essential works are controlled by Ausgrid and for safety reasons, they are required to take place outside of standard working hours. Any affected properties will have been notified of potential impacts by Ausgrid in advance.

The works involve opening a pit at the eastern end of Watermans Quay to access and remove some Electrical Cables. Minor excavation is required and every effort will be made to complete higher impact works in the early part of the shift. Temporary plates will be in place over the excavated pit during the day and once the works are complete, the road will be restored.

## Road Closure

Watermans Quay will be closed during each night shift. Traffic management will be in place to safely direct vehicles and road users. Access to International Towers Sydney basement will remain via Barangaroo Avenue only and under traffic control. Diversion signage will be in place to assist road users. Pedestrians will not be impacted by these works.

The works also require Ausgrid to close a small section of the northbound lane of Hickson Road, between Barton Street and Napoleon Street. Traffic will be maintained under traffic control.

## Tower Crane Installation

As previously notified, Lendlease is installing a tower crane to support the construction of the third residential tower, next to Hickson Road. Due to wet weather delays, preparation work is ongoing. The tower crane is expected to be installed on **Friday 29 July and Saturday 30 July**.

All works will take place during standard construction hours of 7am to 7pm Monday to Friday and 7am to 5pm on Saturdays.

As part of these works, a mobile crane will be established in the workzone next to Hickson Road to lift the crane sections into place and progressively install the crane structure. Due to Transport for NSW requirements for wide load deliveries, the mobile crane is expected to arrive to site on Friday 29 July between 5.00am and 5.30am. All other deliveries will take place during standard construction hours.
